

JOPAL® Saddle Washer

Aluminium Saddle Washer with Bonded EPDM Seal

PRODUCT DESCRIPTION

JOPAL® Saddle Washer, profiled aluminium saddle washer with bonded EPDM sealing layer, designed to distribute the fastening load, support corrugated roofing profiles, and provide a durable weather-tight seal when used with self-drilling screws in roofing and cladding applications.

TYPICAL APPLICATIONS / KEY FEATURES

- Crown fixing of corrugated roofing sheets
 - Polycarbonate roofing sheets
 - Roof refurbishment and maintenance
 - Roofing and wall cladding systems
- 1.0 mm profiled aluminium saddle washer
 - Bonded 2.0 mm EPDM sealing layer
 - Improves load distribution
 - Prevents sheet deformation during tightening
 - Provides reliable weather-tight sealing
 - Compatible with 16 mm and 19 mm bonded screw washers
 - Available for various roofing profiles and colours

SIZE RANGE

Art. Code	Roofing Profile	Material	EPDM Thickness (mm)	Colour
JSW01	Corrugated Trapezoidal Roofing Profiles	Aluminium	2	Available in various colours

TECHNICAL DATA

General Technical Data		
Property	Unit	Value
Material	—	Aluminium
Aluminium Thickness	mm	1.0
EPDM Thickness	mm	2.0
Compatible Screw Washer	mm	Ø16 / Ø19
Installation Position	—	Crown Fixing
Weather Resistance	—	Excellent
UV Resistance	—	Excellent
Corrosion Resistance	—	Excellent
